Craftsmanship
Restoration an Historic Clock

A dozen years ago in 2006, a dozen members of the local chapter of the National Association of Watch and Clock Collectors, Chapter 191, began to restore the New Bern City Hall Tower Clock. This 3000 pound clock had been in the City Hall Tower since it was installed there in 1912.

A member of the clock restoration team got permission to move the clock from the City Hall Tower to the Firemen's Museum for what became a four year long restoration project leading up to the City's 300th Anniversary.

For their dedication to restoring the beauty and precision of an early 20th century clock now on working display at Tryon Palace's North Carolina History Center, we present this medal for craftsmanship to the members of Chapter 191 of the National Association of Watch and Clock Collectors.
